

## Bad Enough

Feelin', send shivers down your spine  
Hearin', the gossip on the grape vine  
Breath in, one hit at a time  
Healin', avoid another landslide

How bad do you want it  
Is it Bad Enough  
How bad do you need it  
How bad, not Bad Enough

Fill your, pockets full of silver  
Deeper, feel it turn to gold

Calm down, nothing lasts forever  
Nothing lasts forever, not ever...

How bad do you want it  
Is it Bad Enough  
How bad do you need it  
How bad, not Bad Enough

Not rough enough, not tough enough  
Not loud enough, not fast enough  
Not deep enough, not cheap enough  
Not cool enough, not hot enough

**LYRICS**

## Olympus

Dig hard, dig deep  
In 'n out and underneath  
No rest, no sleep  
The people cry, the people weep

The wrong, the right  
Investigate, don't let them get  
Away this time, the truth be told  
Read between the lines

The state of fear  
Almost done, almost here  
So close, so near  
Shine a light don't shed a tear

Just hold the line  
The daily chore, the daily grind  
The truth be told, it will unfold  
Just read between the lines  
It's a matter of time

Olympus is down  
Thorn in the crown  
The burning remains  
Olympus has fallen

The fools on the hill  
Move in for the kill  
Freedom in chains  
Olympus has fallen down

The left, the right  
Can't decide, see eye to eye  
By tooth and nail  
They will deny, they will prevail

The greed, the hate  
Destroy the hope, the welfare state  
Can't have what's mine  
I'll keep what's yours  
Read between the lines  
It's a matter of time

Olympus is down  
Thorn in the crown  
The burning remains  
Olympus has fallen

The fools on the hill  
Move in for the kill  
Freedom in chains  
Olympus has fallen down

## I Feel Your Pain

I Feel Your Pain  
Knife in the back  
Dig harder and deeper and  
Deeper again  
Off the beaten track  
The rails again

You still remain  
Tied up and locked down in chains  
I Feel Your Pain

I Feel Your Pain  
Like a heart attack  
Repeating itself  
Again and again  
Reaching the point  
Of no turning back

With enemies close, friends slip away  
The truth of the matter remains  
I Feel Your Pain

I Feel Your Pain,  
Losing sleep, cutting deep and aching  
I Feel Your Pain  
Getting old, grabbing hold, again

I Feel Your Pain  
Tied like a noose  
Too tight and too loose

Cut through my vein  
The blood and the pain  
The burning remains

The end so close, so far away  
Away from the endless rain  
I Feel Your Pain

I Feel Your Pain  
Losing sleep, cutting deep and aching  
I Feel Your Pain  
Getting old, grab me hold again  
I Feel Your Pain  
Holding on, way too long and breaking  
I Feel Your Pain  
I Feel Your Pain

I Feel Your Pain  
Knife in the back  
Dig harder and deeper and  
Deeper again  
Like a heart attack  
Repeating itself  
Again and again and again  
The truth of the matter remains  
I Feel Your Pain

I Feel Your Pain  
Losing sleep, cutting deep and aching  
I Feel Your Pain  
Getting old, grabbing hold again

I Feel Your Pain  
Holding on, way too long and breaking  
I Feel Your Pain  
I Feel Your Pain

## Sound of Change

The silence here is deafening  
Progress kept on hold  
Evolution waiting  
The new replace the old

The stylus dips the static snaps  
The groove it recreates  
The rumble and the modulation  
As dolby shuts the gate

Hear the sound, all around you  
In your ear, hear the Sound of Change

Block the noise, it's beyond you  
Listen close, can you hear the  
Sound of Change

Digital is deafening  
The ones and zeros know  
Analog is threatening  
To come and steal the show

The vinyl spins one more song  
As wow and flutter bleed  
Amplitude, phase, frequency  
In Hi-Fidelity

Hear the sound, all around  
In your ear, hear the Sound of Change

Block the noise, it's beyond you  
Listen close, can you hear the

Sound of Change  
Turning up the gain  
Sound of Change  
Compression and sustain  
Sound of Change

## Think

Wait a minute, gimme a drink  
Before I drown, before I sink  
Made of stone, it's you know who  
Now he bleeds, he bleeds for you

Hang on a minute, I know this place  
A court jester, with a dirty face  
Feel the hand, steal the kiss  
The last laugh is his

Let me Think for myself  
There's no way out  
Let you Think for yourself  
The walls come down

Split second, blink of an eye  
Every word's a lie  
Lamb to the slaughter, moth to the flame  
Hang your head in shame

The Mad Hatter holds the reins  
He puts the Queen of Hearts to shame  
Believe the lies, ignore the truth  
Never trust a fool

Let me Think for myself  
There's no way out  
Let you Think for yourself  
The walls come down

Think  
Think for yourself

## Brave New World

In the early morning gloom  
The anchor spoke too soon  
The people held their  
Breath in fear, it would appear

What used to be inapt  
Is only a matter of time  
Be careful where you  
Tread my friend, you might offend

As the past and the present hold out  
The future's in doubt

As the code turns red  
And the line goes dead  
Visions of a Brave New World

When it's said and done  
And the time has come  
Living in a Brave New World

As the talent thanks the crowd  
He takes his final bow  
His ego hits the wall of fame  
The echo fades

When there's no more looking back  
And the old men can't reflect  
If life's a debt worth living for  
Worth dying for

As the code turns red and  
The line goes dead  
Visions of a Brave New World

When it's said and done and  
The time has come  
Living in a Brave New World

When the fear is gone and  
The race is run  
Visions of a Brave New World

When all hope is lost  
At what price what cost  
Visions of a Brave New World

## God Only Knows

You preach the day of reckoning  
Confess away your sins  
Paradise keeps beckoning  
But it won't let you in

Bedtime story saviours  
Blinded by the light  
Moral misbehaviours  
Converge in wrong and right

Betrayed and lost inside your soul  
The lights are on but no one's home

If you believe, God Only Knows  
Practice what you preach  
Reap what you sow  
The pain you feel, the hope they steal  
The lies behind the truth  
Won't heal your soul  
Reap what you sow  
God Only Knows

The silent pain is deafening  
The fiction has you sold  
Reason always threatening  
The testament unfolds

So onward march the soldiers  
To fight the 'good' fight  
Does it ever make you wonder  
Who is wrong and who is right

God Only Knows, reap what you sow  
Feel the shame, you feel betrayed  
But you can't let it go

## Time

Time slips away  
Countdown commencing  
Feel your heart beat  
Race toward the line  
You only hope it goes to overtime

Race against the clock  
Time keeper ready  
Synchronize your watch  
Go to gate, flight delayed  
Departure way too late

To change, the road you take  
Seize the day, don't let it slip away  
It's only a matter of

Time ticking away,  
Minute by minute, day by day  
Time, seconds away  
Takin' it day by day by day

Time flies  
When you're having fun  
Walk don't run just  
Ride out the storm  
Before it all comes crashing down

All things must pass  
There's no way back  
So raise, your glass  
To the final act  
It's only a matter of

Time, slipping away,  
Minute by minute, day by day  
Time, seconds away  
Takin' it day by day  
It's only a matter of time

## Only A Fool

Stand up  
Stand up and be counted  
Break the chain of command  
Rise up  
Rise against the familiar  
The meaningless and the bland

They take what's yours and they take what's  
mine  
Do you wrong each and every time  
Hide out behind that bleach white smile  
They swear it's the truth, then always deny

And they think they can Fool  
Some of the people some of the time  
But only a Fool  
Can Fool all the people all the time

Give up  
Bread and games for the masses  
Revolution On Hold  
Tied up  
Beat down and broken  
Only rebels break the mold  
Take back your pride, take back the power  
Leave it too late, the beast will devour  
No time for reflection, no time for debate  
Kill the election, tear down the gate

They think they can Fool  
Some of the people some of the time  
Only a Fool  
Can Fool all the people all the time

What a Fool believes a Fool achieves  
Grinds all your hope into despair  
When a nation holds its breath it can't decide  
'Cause desperate times  
Call for desperate crimes
